AVALIAÇÃO BIMESTRAL – 3º BIMESTRE – ANO LETIVO 2026

LÍNGUA INGLESA – 3ª SÉRIE DO ENSINO MÉDIO – OFERTA B – 1º DIA – 10 QUESTÕES (TIPO C)

Professor Ulysses Cesar · Língua Inglesa

Objetos do conhecimento: Past Perfect Simple · Past Perfect Continuous

Eixo temático: Semana do Cerrado · Matriz de Referência do PAS/UnB

PROVA REGULAR

Instruções: Leia o texto de apoio e marque a alternativa correta (A, B, C ou D).

Read the text below and answer the questions.

Before large-scale agriculture transformed the region, the Cerrado had covered nearly a quarter of Brazil with its unique landscapes. For thousands of years, diverse species had been thriving in its grasslands and dry forests. By the time the soy farms expanded, much of the native vegetation had already disappeared. When researchers measured the damage, they discovered that more than half of the biome had been cleared. Farmers had been producing soy and cattle for decades, and the economy had grown enormously, but the biome had paid a heavy price. Ecologists later explained that, before the expansion, the Cerrado had sheltered over 3,000 plant species. Many of them had been disappearing quietly for years, and scientists had not documented all of them before they vanished.

Adaptado, em narrativa passada, de texto sobre o bioma Cerrado. In: CESAR, Ulysses. Verb Tenses – 3º Ano. 2026.

QUESTÃO 1 (Past Perfect Simple) Complete: "Before large-scale agriculture transformed the region, the Cerrado _____ nearly a quarter of Brazil."

- A) had covered
- B) has covered
- C) had cover
- D) was covering

QUESTÃO 2 (Past Perfect Simple) Choose the correct sentence:

- A) Scientists had not documenting all the species.

- B) Scientists hadn't documents all the species.
- C) Scientists had not documented all the species.
- D) Scientists didn't had documented all the species.

QUESTÃO 3 (Past Perfect Continuous) Complete: "For thousands of years, diverse species _____ in its grasslands."

- A) had being thriving
- B) had been thriving
- C) has been thriving
- D) had been thrive

QUESTÃO 4 (Past Perfect Continuous) Choose the correct sentence:

- A) Farmers had being producing soy for decades.
- B) Farmers has been producing soy for decades.
- C) Farmers had been produce soy for decades.
- D) Farmers had been producing soy for decades.

QUESTÃO 5 (Past Perfect Simple x Continuous) Which sentence emphasizes the duration of an action before another moment in the past?

- A) Many species had been disappearing quietly for years.
- B) The native vegetation had disappeared.
- C) The economy had grown enormously.
- D) Researchers measured the damage.

QUESTÃO 6 (Past Perfect Simple) Complete: "By the time the soy farms expanded, much of the native vegetation _____ already _____."

- A) has / disappeared
- B) had / disappear
- C) was / disappeared
- D) had / disappeared

QUESTÃO 7 (Past Perfect Simple) Choose the correct negative form:

- A) The biome hadn't recovering its original vegetation.

- B) The biome didn't had recovered its original vegetation.
- C) The biome hadn't recovered its original vegetation.
- D) The biome doesn't had recovered its original vegetation.

QUESTÃO 8 (Gramática em contexto) In the text, the form "had been producing" indicates:

- A) an action that will be completed in the future.
- B) an action that lasted for a period before another moment in the past.
- C) an action that happened only once, at a specific moment.
- D) a habit in the present.

QUESTÃO 9 (Interpretação de texto) According to the text, when researchers measured the damage, they discovered that:

- A) the biome was completely intact.
- B) the soy farms had never expanded.
- C) all the species had already been documented.
- D) more than half of the biome had been cleared.

QUESTÃO 10 (Interpretação de texto) The passage "the economy had grown enormously, but the biome had paid a heavy price" establishes a relation of:

- A) cause and consequence between agriculture and rainfall.
- B) chronological sequence between two future events.
- C) opposition between economic gain and environmental loss.
- D) equivalence between conservation and production.

QUADRO DE ESPECIFICAÇÃO DOS ITENS

Item	Objeto do conhecimento	Gabarito	Justificativa
1	Past Perfect Simple	A	Had + particípio passado marca a ação anterior a outro fato passado.
2	Past Perfect Simple	C	A negativa é hadn't (had not) + particípio passado.
3	Past Perfect Continuous	B	Had been + verbo com -ing; é been, nunca being.

4	Past Perfect Continuous	D	Had been + verbo com -ing, mantendo had com sujeito plural.
5	Past Perfect Simple x Continuous	A	O Past Perfect Continuous enfatiza a duração da ação anterior a outro momento passado.
6	Past Perfect Simple	D	By the time + passado exige o Past Perfect para o fato anterior.
7	Past Perfect Simple	C	Hadn't + particípio passado; as demais erram o auxiliar ou a forma verbal.
8	Gramática em contexto	B	Had been producing marca atividade prolongada anterior a outro marco passado.
9	Interpretação de texto	D	Informação explícita: mais da metade do bioma havia sido desmatada.
10	Interpretação de texto	C	A conjunção but opõe o ganho econômico à perda ambiental.

Articulação com a Matriz de Referência do PAS/UnB – Subprograma 3: o texto de apoio dialoga com o audiovisual "Racismo ambiental: entenda essa luta" (Canal Preto, 2021 — item 8 dos audiovisuais) e com os textos "A importância da biotecnologia para o desenvolvimento da Amazônia" (STEAGALL, Milton. CNN Brasil, 2023 — item 6) e "Cupuaçu só surgiu com a domesticação de fruto por indígenas" (ALMEIDA, Camilla. Jornal da USP, 2023 — item 7), da relação oficial de Obras de Referência do PAS 3 (UnB, versão preliminar de junho de 2024), articulados à discussão de "Necropolítica" (MBEMBE, item 9). Eixos transversais: Educação para a Sustentabilidade e Educação para a Diversidade. Atividade integrada à Semana do Cerrado.

PROVA ADAPTADA (TIPO C ADAPTADA)

Instruções: Leia o texto de apoio e marque a alternativa correta (A, B ou C). É permitido o uso de dicionário.

Read the text below and answer the questions.

Before large-scale agriculture transformed the region, the Cerrado had covered nearly a quarter of Brazil with its unique landscapes. For thousands of years, diverse species had been thriving in its grasslands and dry forests. By the time the soy farms expanded, much of the native vegetation had already disappeared. When researchers measured the damage, they discovered that more than half of the biome had been cleared. Farmers had been producing soy and cattle for decades, and the economy had grown enormously, but the biome had paid a heavy price.
